

Literacy & Math Distance Learning SUMMER Programs GR. 6, 7 & 8 2020 Summer School

MATH PROGRAM

This two-week summer program is designed for students who would benefit from additional practice and assistance to ease their transition into Grade 7, 8 & 9. Students will participate in engaging lessons to meet their individual needs and learning styles.

LITERACY PROGRAM

Students can be initially engaged in reading by focusing on their comprehension and enjoyment of a given story, poem, blog, or news report. Fundamentally, balanced literacy revolves around two primary strands, a reading strand and a writing strand, each of which mirrors the other. Engaging lessons will be provided to ensure all students' needs and learning styles are met.

Principal and teacher recommendations are requested for these programs; however, parents may initiate an application.

This year's Grade 6, 7, & 8 Summer School Programs will be offered in a Distance Learning Format.

You will be contacted **ONLY** if your course is full or cancelled.
