## Letter to Parents from Ministry of Education

Dear Parents and Guardians,

This afternoon, the Minister of Education, Stephen Lecce, issued a letter to Ontario parents and guardians.

[Click here to read the letter from Minister Lecce.](#)

In his letter, Minister Lecce notes that while at this time the school closures are in effect until April 6, 2020, the Ministry is preparing in the event that the closures need to be extended.

Our Board is exploring options that will further support the delivery of curriculum to students should this school closure period go beyond two weeks. We will continue to work with the Ministry of Education to ensure that student learning continues during this time.

In the meantime, as I indicated in Friday's email, students and parents are encouraged to access the first phase of the [Learn at Home](#) online resources provided by the Ministry of Education.

As always, we keep all members of our community in our thoughts and prayers.

Take care of yourself and your family.

Pat Daly  
Director of Education
