Definitions

External Research is described as when an external agency/individual/institution wants to do research in a school or board. This includes requests from a Board employee collaborating with a non-Board agency or educational institution, and requests from a Board employee wanting to do research outside his/her own area of responsibility for the purposes of completing a professional course or program of study.

Internal Research is described as a central office, school or classroom research project that is related to Board or Ministry initiatives, conducted by any Board employee. It also includes a Board

employee who conducts research within his/her own work environment to promote professional growth (e.g., AQ course).

Principles

- The Board acknowledges the potential benefit of engaging in external and internal research activities as a means to gather data for educational and research purposes.
- The Board promotes and endorses the gathering of data for research purposes in keeping with the core values of the Catholic Church.
- All research activities shall be consistent with HCDSB mission and values, policies, procedures, and strategic directions.
- The Board acknowledges that on occasion the Ministry of Education mandates that data be collected on various educational initiatives and that they may work with independent researchers and/or university partners to conduct research in our Board to inform provincial educational strategies.
- External researchers must actively seek permission from parents/guardians when interested in inviting students to participate in a research study.

Requirements

- All research activities that involve our staff and/or students requires review and approval from the HCDSB Research Advisory Committee before the research is started. A checklist is used to assist the committee with the review process.
- The Board expects that all educational research proposals adhere to the [Tri-Council Policy Statement: Ethical Conduct for Research Involving Humans \(TCPS 2\)](#).
- Informed consent is required for all research activities that are not conducted under the authority of the Education Act. The form of this consent may vary across projects, but it should be obtained from participants, before the study begins.. When students participating in the study are under the age of 18, consent must be obtained from a parent/guardian.
- Consent must be voluntary, informed, and an ongoing process.
- All research activities shall be in accordance with *Administrative Procedure VI-25 Educational Research* and the Education Act, where applicable.
